SCHOOL OF OSTEOPATHIC MEDICINE

Osteopathic Oath

I do hereby affirm my loyalty to the profession I am about to enter.

I will be mindful always of my great responsibility to preserve the health and life of my patients, to retain confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognizable methods of treatment consistent with good judgement and with my skill and ability, keeping in mind always nature's laws and the body's inherent capacity of recovery.

I will be ever vigilant in aiding the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no deadly drugs to any, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation, and never by word or by act cast imputations upon them or their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will ever be alert to adhere to and develop the principles and practices of Osteopathic Medicine and Surgery as taught in this college.

In the presence of this gathering I bind myself to my oath.

DEAN'S MESSAGE to the CLASS OF 1993

Frederick J. Humphrey II, D.O.

Dean

School of Osteopathic Medicine

My sincere congratulations to all members of the UMDNJ-School of Osteopathic Medicine Class of 1993. Over the past fifteen years, the students of the UMDNJ-SOM have developed a tradition of outstanding accomplishments that ranks you among the elite of the graduating osteopathic medical students from across the country. Your class of 1993 has continued to uphold this tradition of excellence, and we are very proud of each and every one of you. We also welcome you to our alumni association and trust that you will always consider yourself part of our growing family.

This November we will have the ribbon cutting ceremony for our new Academic Center and addition to our Science Center. We are all very proud of our new buildings and very pleased that our new campus is now complete. For those of you who are taking internships and residencies off campus, we encourage you to return to your Alma Mater to personally tour our new facilities.

When we look toward the 21st Century, it is both an exciting and challenging time for each new physician. You have learned treatment and prevention modalities unknown to man a decade ago. At the same time, medicine, with its daily discoveries, is ever changing. The challenges of conquering such problems as AIDS, organic dementias, mental disorders, etc., remain before you. While new technologies allow you to practice medicine as never before, never forget that the physician's role is to enrich the quality of life for patients so that it is worth living. You have the skills to carry out the work of the most noble of professions. While exotic drugs make miracles seem commonplace today, remember always that no drug can replace the empathy and healing hands of a well trained, attentive and dedicated physician.

As you enter practice, you will appreciate that you are unique. You are more comprehensively trained by virtue of being osteopathic physicians than any other health care provider. You have the knowledge and skills to pursue the choices you want in the future while being steeped in the long and proud tradition of a century of osteopathic care giving skills. The work is hard; the rewards great. We are proud of each of you. Our best wishes to you and yours always for health, happiness and success.
